Grow Your Business Through Viral Marketing Using Incentives

Introduction:

In 2019, Gabe Schillinger launched an incredible Upviral campaign that generated 41,000 leads and a whopping \$200,000 in revenue!

In 2018, Nick Daugherty, a keynote speaker at FunnelHacking Live, discussed how they generated 1.7 million shares.

I used this system, a single email, and a shoddy sales page, which generated over \$10,000 in revenue for me.

Noah Kagan at King Sumo generated over 28,000 leads from one giveaway. The bottom line, this software and the other tools we use to get you leads and sales are not “one hit wonders”

This software has survived the test of time and just keeps getting better. So the process for implementing this program is simple:

LEAD MAGNET

Gabe created a very expensive lead magnet(i.e. flying the winner to his studio, spending \$1,000 to support their single record).

Viral Ad Masters can source you an appropriate lead magnet for your audience, which does not have to be expensive. Many marketers use ebook download, cheats, software, etc. We provide these incentives for your viral campaign.

*Vacation Get-A-ways

*Dining Cards worth from \$100 - \$300

Our Incentives Include:

Hotel Savings Card \$100, \$200, \$300 or \$500 hotel savings card to your prospects and clients.

Dining Guru Restaurant Incentives of \$100, \$200 to your clients.

TIMING

Gabe's choice of holding the launch on Black Friday is no coincidence. He knew that this was a time when people were willing to loosen the purse strings and so it was the obvious time to provide an upsell.

Timing becomes less important if you can promote for several weeks and may hit a critical date but is less important.

DURATION

Gabe's giveaway campaigns last anywhere from 4 to 8 weeks.

This extended time frame is highly important to Gabe's strategy.

Your promotion can run for 4 weeks as we can modify and tweak the promotion for maximum results.

LOW RISK

Gabe Schillinger believes that it's important that the grand prize of a giveaway is a low risk to you. His 2019 prize was extravagant, but compared to the size of Legion Beats at the time he felt this size prize was appropriate.

VIRAL WORTHY INCENTIVE

A campaign must have a built-in virality. Must be something your targeted audience really wants or can use.

This becomes a way for your customers to market your offer themselves. In Gabe's case, he offered an additional 10 beats for anyone that referred 3 of their friends to the campaign.

Incentives get your customers to market your offer for you. Find a product that your audience wants and in return for them sharing your information, opting into your list, sharing your offer, they receive the wanted item.

Using this Suite of Marketing Tools Almost Ensures Your Success. Best of All You can become an affiliate for most of these programs and do it yourself. Using Viral Marketing Systems is the way to go.

Those who have thousands of dollars to spend on ads often discover that Google and Facebook  not a "sure thing" and may not produce the results they need.

A couple of months ago, I joined a program advertised on LeadsLeap (I love Leads Leap)

But one of the members posted about a program that promised *PerPetual Traffic*. I joined and immediately wrote articles about it on LinkedIn and my personal blog.

This program required joining and linking a massive number of different safelist, traffic exchange programs, paid traffic like *clicks engine***, traffic blaster, and more into an integrated system that promised to create *PerPetual Traffic*.

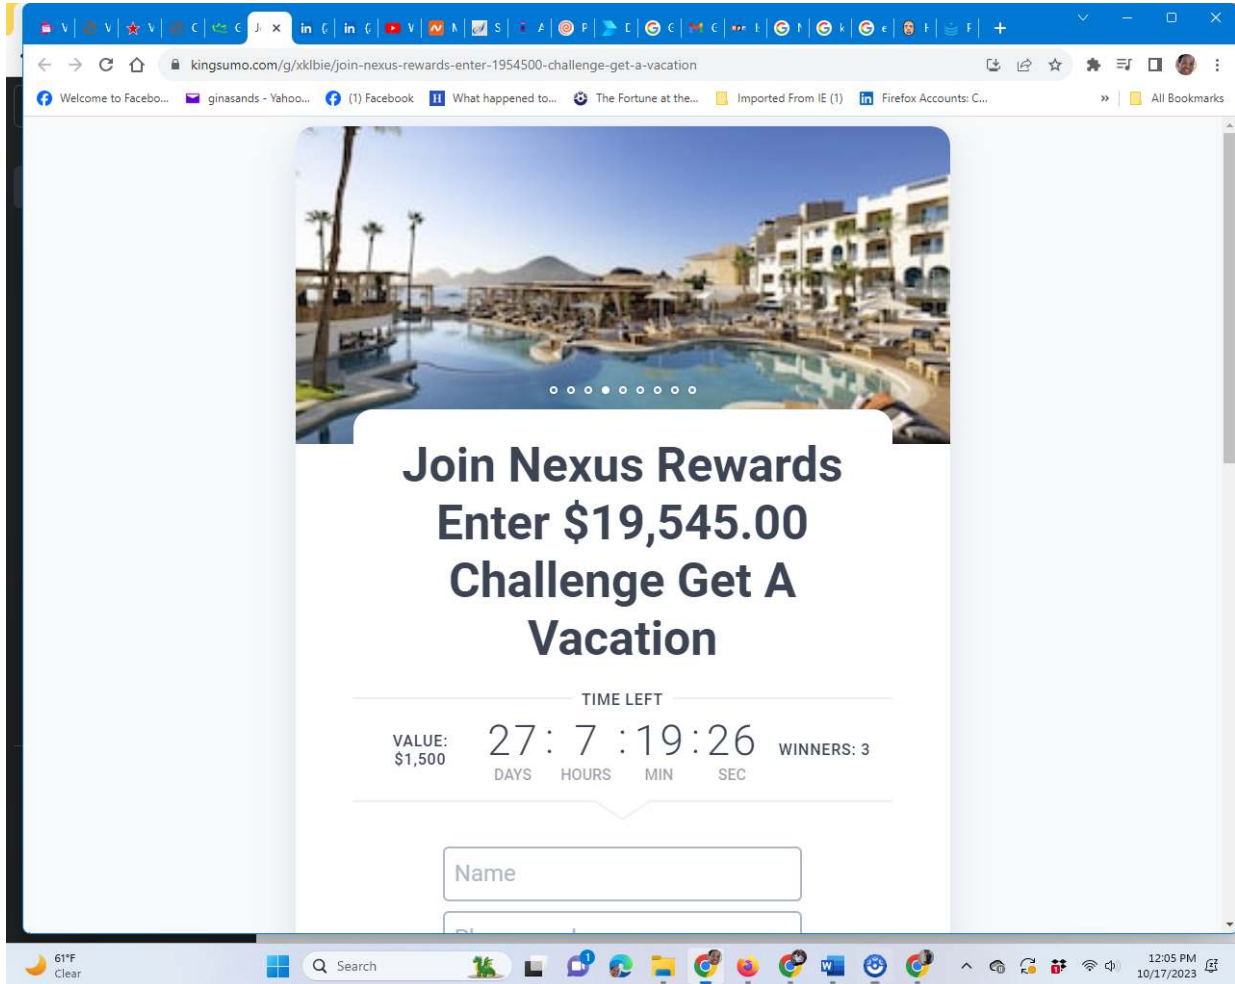

As I started promoting this site and signing up for the paid programs, I investigated the individuals who created these programs and found out the (Jeff Aman, creator of the very popular "Click Engine stated in a video that a program called *Upviral* saved his internet marketing career.

An Entire Weekend Spent

I spent an entire weekend linking, joining and creating this perpetual traffic system. At the very end, one requirement was to buy an Udimi ad for your sponsor with a cost of \$100.00

And I waited. Guess What. The main paid traffic product stopped working. After 3 weeks I received a message from the owner letting me know that my downline was growing... I received 1 referral.
